DETAILED ACTION

This application is a 371 of PCT/EP00/06091.

Claims 8-16 are pending.

In response to the response filed on August 13, 2004, the Restriction Requirement mailed on July 13, 2004 is withdrawn in place of the instant Restriction Requirement.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) ^{8-11, 15}~~8-16~~, drawn to a DNA encoding an orotate phosphoribosyl transferase of SEQ ID NO:3, an orotate phosphoribosyl transferase of SEQ ID NO:3, vector comprising said DNA, host cell comprising said DNA and a method of producing said transferase.

Group II, claim(s) 12 and 16, drawn to a process for producing fungal strains by transforming a fungal strain with an auxotrophic gene.

Group III, claim(s) 13 and 14, drawn to an expression system comprising a selection marker gene which complements an auxotrophic gene defect.

Art Unit: 1652

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups I-III are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept.

The special technical feature of Group I is a pyrF gene and its encoded polypeptide.

The special technical feature of Group II is a method of producing fungal strains.

The special technical feature of Group III is an expression system comprising a selectable marker.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
